ENDORSED  
FILED  
ALAMEDA COUNTY

JUL 05 2017

CLERK OF THE SUPERIOR COURT  
By S. IYAMU Deputy

Attorneys for Plaintiff Environmental Research Center, Inc.

**SUPERIOR COURT OF THE STATE OF CALIFORNIA  
COUNTY OF ALAMEDA**

**ENVIRONMENTAL RESEARCH CENTER,  
INC., a California non-profit corporation**

**Plaintiff,**

**vs.**

**M.A.N. SPORTS LLC and DOES 1-100**

**Defendants.**

**CASE NO. RG 17867112**

**COMPLAINT FOR INJUNCTIVE  
AND DECLARATORY RELIEF AND  
CIVIL PENALTIES**

[Toxic Tort/Environmental (30)]  
Proposition 65, Health & Safety Code  
Section 25249.5 et seq.]

Plaintiff Environmental Research Center, Inc. hereby alleges:

**I**

**INTRODUCTION**

1. Plaintiff Environmental Research Center, Inc. (hereinafter "Plaintiff" or "ERC") brings this action as a private attorney general enforcer and in the public interest pursuant to Health & Safety Code section 25249.7, subdivision (d). The Safe Drinking Water and Toxic Enforcement Act of 1986 (Health & Safety Code section 25249.5 *et seq.*) also known as "Proposition 65," mandates that businesses with ten or more employees must provide a "clear and reasonable warning" prior to exposing any individual to a chemical known to the state to cause cancer or reproductive toxicity. Lead is a chemical known to the State of California to cause cancer, birth

1 defects, and other reproductive harm. This complaint seeks injunctive and declaratory relief  
2 and civil penalties to remedy the ongoing failure of Defendants M.A.N. Sports LLC (“M.A.N.  
3 Sports”) and Does 1-100 (hereinafter individually referred to as “Defendant” or collectively as  
4 “Defendants”), to warn consumers that they have been exposed to lead from a number of  
5 M.A.N. Sports’ nutritional health products as set forth in paragraph 3 at levels exceeding the  
6 applicable Maximum Allowable Dose Level (“MADL”) and requiring a warning pursuant to  
7 Health & Safety Code section 25249.6.

8 **II**  
9 **PARTIES**

10 2. Plaintiff ERC is a California non-profit corporation dedicated to, among other causes,  
11 helping safeguard the public from health hazards by reducing the use and misuse of hazardous  
12 and toxic chemicals, facilitating a safe environment for consumers and employees, and  
13 encouraging corporate responsibility.

14 3. Defendant M.A.N. Sports is a business that develops, manufactures, markets, distributes,  
15 and/or sells nutritional health products that have exposed users to lead in the State of California  
16 within the relevant statute of limitations period. These “SUBJECT PRODUCTS” are: (1)  
17 MAN Metabolic Augmenting Nutrition PR-XT Advanced Testosterone Booster, (2) MAN  
18 Metabolic Augmenting Nutrition Body Octane Strawberry Mango, (3) MAN Man Sports Game  
19 Day SourBatch, (4) MAN Man Sports CLA Powder Blue Bomb-Sicle, (5) MAN Sports CLA  
20 Powder SourBatch, and (6) MAN Sports CLA Powder Dorks. M.A.N. Sports is a company  
21 subject to Proposition 65 as it employs ten or more persons, and has employed ten or more  
22 persons at all times relevant to this action.

23 4. Defendants Does 1-100, are named herein under fictitious names, as their true names  
24 and capacities are unknown to ERC. ERC is informed and believes, and thereon alleges, that  
25 each of said Does is responsible, in some actionable manner, for the events and happenings  
26 hereinafter referred to, either through said Does’ conduct, or through the conduct of its agents,  
27 servants or employees, or in some other manner, causing the harms alleged by ERC in this  
28 complaint. When said true names and capacities of Does are ascertained, ERC will seek leave

1 to amend this complaint to set forth the same.

2 **III**

3 **JURISDICTION AND VENUE**

4 5. This Court has jurisdiction pursuant to California Constitution Article VI, Section 10,  
5 which grants the Superior Court original jurisdiction in all causes except those given by statute  
6 to other trial courts. The statute under which this action is brought does not specify any other  
7 basis for jurisdiction.

8 6. This Court has jurisdiction over M.A.N. Sports because it has sufficient minimum  
9 contacts with California, and otherwise intentionally avails itself of the California market  
10 through the marketing, distribution, and/or sale of the SUBJECT PRODUCTS in the State of  
11 California so as to render the exercise of jurisdiction over it by the California courts consistent  
12 with traditional notions of fair play and substantial justice.

13 7. The Complaint is based on allegations contained in the Notice of Violation dated March  
14 24, 2017, served on the California Attorney General, other public enforcers, and M.A.N. Sports.  
15 The Notice of Violation constitutes adequate notice to M.A.N. Sports because it provided  
16 adequate information to allow M.A.N. Sports to assess the nature of the alleged violations,  
17 consistent with Proposition 65 and its implementing regulations. A certificate of merit and a  
18 certificate of service accompanied each copy of the Notice of Violation, and both certificates  
19 comply with Proposition 65 and its implementing regulations. The Notice of Violation served  
20 on M.A.N. Sports also included a copy of "The Safe Drinking Water and Toxic Enforcement  
21 Act of 1986 (Proposition 65): A Summary." Service of the Notice of Violation and  
22 accompanying documents complied with Proposition 65 and its implementing regulations.  
23 Attached hereto as **Exhibit A** is a true and correct copy of the Notice of Violation and  
24 associated documents. More than 60 days have passed since ERC mailed the Notice of  
25 Violation and no public enforcement entity has filed a complaint in this case.

26 8. This Court is the proper venue for the action because the causes of action have arisen in  
27 the County of Alameda where some of the violations of law have occurred, and will continue to  
28 occur, due to the ongoing sale of M.A.N. Sports' products. Furthermore, venue is proper in this

1 Court under Code of Civil Procedure section 395.5 and Health & Safety Code section 25249.7.

2 **IV**

3 **STATUTORY BACKGROUND**

4 9. The Safe Drinking Water and Toxic Enforcement Act of 1986 is an initiative statute  
5 passed as "Proposition 65" by an overwhelming majority vote of the people in November of  
6 1986.

7 10. The warning requirement of Proposition 65 is contained in Health & Safety Code  
8 section 25249.6, which provides:

9 No person in the course of doing business shall knowingly and  
10 intentionally expose any individual to a chemical known to the state to  
11 cause cancer or reproductive toxicity without first giving clear and  
12 reasonable warning to such individual, except as provided in Section  
13 25249.10.

14 11. Implementing regulations for Proposition 65 define expose as "to cause to ingest, inhale,  
15 contact via body surfaces or otherwise come into contact with a listed chemical." An individual  
16 may come into contact with a listed chemical through water, air, food, consumer products and  
17 any other environmental exposure as well as occupational exposures." (Cal. Code Regs., tit. 27,  
18 § 25102, subd. (i).)

19 12. In this case, the exposures are caused by consumer products. Implementing regulations  
20 for Proposition 65 define a consumer product exposure as "an exposure which results from a  
21 person's acquisition, purchase, storage, consumption, or other reasonably foreseeable use of a  
22 consumer good, or any exposure that results from receiving a consumer service." (Cal. Code  
23 Regs., tit. 27, § 25602, subd. (b).)

24 13. Whenever a clear and reasonable warning is required under Health & Safety Code  
25 section 25249.6, the "method employed to transmit the warning must be reasonably calculated  
26 considering the alternative methods available under the circumstances, to make the warning  
27 message available prior to exposure." (Cal. Code Regs., tit. 27, §25601.) The warning  
28 requirement may be satisfied by a warning that appears on a product's label or other labeling,  
shelf labeling, signs, a system of signs, public advertising identifying the system and toll-free

1 information services, or any other system, that provides clear and reasonable warnings. (Cal.  
2 Code Regs., tit. 27, §25603.1, subd. (a)-(d).)

3 14. Proposition 65 establishes a procedure by which the State is to develop a list of  
4 chemicals “known to the State to cause cancer or reproductive toxicity.” (Health & Safety  
5 Code, § 25249.8.) There is no duty to provide a clear and reasonable warning until 12-months  
6 after the chemical is published on the State list. (Health & Safety Code, § 25249.10, subd. (b).)

7 15. Lead was listed as a chemical known to the State of California to cause developmental  
8 toxicity in the fetus and male and female reproductive toxicity on February 27, 1987. Lead was  
9 listed as a chemical known to the State of California to cause cancer on October 1, 1992. (State  
10 of California EPA OEHHA Safe Drinking Water and Toxic Enforcement Act of 1986  
11 Chemicals Known to the State to Cause Cancer and Reproductive Toxicity.) The MADL for  
12 lead as a chemical known to cause reproductive toxicity is 0.5 micrograms per day. (Cal. Code  
13 Regs., tit. 27, §25805, subd. (b).) The No Significant Risk Level for lead as a carcinogen is 15  
14 micrograms per day. (Cal. Code Regs., tit. 27, §25705, subd. (b).)

15 16. Proposition 65 provides that any person “violating or threatening to violate” Proposition  
16 65 may be enjoined in any court of competent jurisdiction. (Health & Safety Code, §25249.7,  
17 subd. (a).) To “threaten to violate” means “to create a condition in which there is a substantial  
18 probability that a violation will occur.” (Health & Safety Code, § 25249.11, subd. (e).)  
19 Furthermore, violators are subject to a civil penalty of up to \$2,500 per day for each violation.  
20 (Health & Safety Code, § 25249.7, subd. (b)(1).)

21 17. Proposition 65 may be enforced by any person in the public interest who provides notice  
22 sixty days before filing suit to both the violator and designated law enforcement officials. The  
23 failure of law enforcement officials to file a timely complaint enables a citizen suit to be filed  
24 pursuant to Health & Safety Code section 25249.7, subdivisions (c) and (d).

25 ///

26 ///

27 ///

28 ///

**STATEMENT OF FACTS**

18. M.A.N. Sports has developed, manufactured, marketed, distributed, and/or sold the SUBJECT PRODUCTS containing lead into the State of California. Consumption of the SUBJECT PRODUCTS according to the directions and/or recommendations provided for said products causes consumers to be exposed to lead at levels exceeding the 0.5 micrograms per day MADL and requiring a warning. Consumers have been ingesting these products for many years, without any knowledge of their exposure to lead, a very dangerous chemical.

19. For many years, M.A.N. Sports has knowingly and intentionally exposed numerous persons to lead without providing a Proposition 65 warning. Prior to ERC's Notice of Violation and this Complaint, M.A.N. Sports failed to provide a warning on the labels of the SUBJECT PRODUCTS. M.A.N. Sports has at all times relevant hereto been aware that the SUBJECT PRODUCTS contained lead and that persons using these products have been exposed to this chemical. M.A.N. Sports has been aware of the presence of lead in the SUBJECT PRODUCTS and has failed to disclose the presence of this chemical to the public, who undoubtedly believe they have been ingesting totally healthy and pure products pursuant to the company's statements. On the company's website, various representations are conveyed regarding the quality and beneficial nature of the company's products as well as the steps purportedly taken to ensure those qualities. These statements include but are not limited to the following:

- "MAN Sports comes to life promoting clinically-dosed, cutting-edge ingredients, yielding super high quality products."

- "WHAT DOES MICRO-BATCH MEAN?  
Every batch made in limited quantities, every bottle a testament to the work and science that has gone into each handcrafted formula. Formed by the perfect blending of science and application. There is a beauty in the process of manufacturing every micro-batch, that has been long forgotten, we refuse to hand over the manufacturing to a mass-production facility. All of this is made possible thanks to highly qualified personnel who care about your finished product, and by heavily investing in the most advanced lab equipment available today."

1 “It takes longer. It takes more labor. It’s tedious and precise. Making micro-batches is not  
2 easy, but it’s the only way we know how to provide the premium quality in every bottle we  
demand. We take pride in our work.”

3 • “SOURCING INGREDIENTS

4 We only source the highest quality ingredients to create our premium supplements. The highest  
5 standardizations possible, most pure and quality tested ingredients make the cut.”

6 • “ANALYTICAL TESTING

7 Each ingredient comes with a C of A (Certificate of Analysis) confirming that it meets  
8 specifications and is pure & free of contaminants.”

8 • “QUALITY TESTING

9 After the Micro-Batch has been completed, samples are pulled for further micro and analytical  
10 testing, ensuring there are no contaminants in the final product....”

11 20. Both prior and subsequent to ERC’s Notice of Violation, M.A.N. Sports failed to  
12 provide consumers of the SUBJECT PRODUCTS with a clear and reasonable warning that they  
13 have been exposed to a chemical known to the State of California to cause cancer, birth defects  
14 and other reproductive harm. This failure to warn is ongoing.

15 **FIRST CAUSE OF ACTION**

16 **(Violation of Section 25249.6 of the Health and Safety Code, Failure to Provide Clear and**  
17 **Reasonable Warning under Proposition 65)**

18 21. ERC refers to paragraphs 1-20, inclusive, and incorporates them herein by this  
19 reference.

20 22. By committing the acts alleged above, M.A.N. Sports has, in the course of doing  
21 business, knowingly and intentionally exposed users of the SUBJECT PRODUCTS to lead, a  
22 chemical known to the State of California to cause cancer, birth defects, and other reproductive  
23 harm, without first giving clear and reasonable warning to such individuals within the meaning  
24 of Health & Safety Code section 25249.6. In doing so, M.A.N. Sports has violated Health &  
25 Safety Code section 25249.6, and continues to violate the statute with each successive sale of  
26 the SUBJECT PRODUCTS.

27 23. Said violations render M.A.N. Sports liable for civil penalties, up to \$2,500 per day for  
28 each violation, and subject M.A.N. Sports to injunction.

**SECOND CAUSE OF ACTION**  
**(Declaratory Relief)**

ERC refers to paragraphs 1-23, inclusive, and incorporates them herein by this reference.

24. There exists an actual controversy relating to the legal rights and duties of the Parties, within the meaning of Code of Civil Procedure section 1060, between ERC and M.A.N. Sports, concerning whether M.A.N. Sports has exposed individuals to a chemical known to the State of California to cause cancer, birth defects, and other reproductive harm without providing clear and reasonable warning.

**VI**

**PRAYER**

WHEREFORE ERC prays for relief as follows:

1. On the First Cause of Action, for civil penalties for each and every violation according to proof;

2. On the First Cause of Action, and pursuant to Health & Safety Code section 25249.7, subdivision (a), for such temporary restraining orders, preliminary and permanent injunctive orders, or other orders as are necessary to prevent M.A.N. Sports from exposing persons to lead without providing clear and reasonable warning;

3. On the Second Cause of Action, for a declaratory judgment pursuant to Code of Civil Procedure section 1060 declaring that M.A.N. Sports has exposed individuals to lead without providing clear and reasonable warning; and

4. On all Causes of Action, for reasonable attorneys' fees pursuant to Code of Civil Procedure section 1021.5 or the substantial benefit theory;

5. For costs of suit herein; and

6. For such other relief as the Court may deem just and proper.

**Michael Freund, Esq.**  
**Ryan Hoffman, Esq.**

OF COUNSEL:  
**Denise Ferkich Hoffman, Esq.**

March 24, 2017

**NOTICE OF VIOLATION OF  
CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 ET SEQ.  
(PROPOSITION 65)**

Dear Alleged Violator and the Appropriate Public Enforcement Agencies:

I represent Environmental Research Center, Inc. ("ERC"), 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108; Tel. (619) 500-3090. ERC's Executive Director is Chris Heptinstall. ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California's Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65"), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violator identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violator and the appropriate public enforcement agencies. Pursuant to Health and Safety Code Section 25249.7(d), ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

**General Information about Proposition 65.** A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is enclosed with this letter served to the alleged Violator identified below.

**Alleged Violator.** The name of the company covered by this notice that violated Proposition 65 (hereinafter the "Violator") is:

**M.A.N. Sports LLC**

**Consumer Products and Listed Chemical.** The products that are the subject of this notice and the chemical in those products identified as exceeding allowable levels are:

- 1. MAN Metabolic Augmenting Nutrition PR-XT Advanced Testosterone Booster - Lead**
- 2. MAN Metabolic Augmenting Nutrition Body Octane Strawberry Mango - Lead**
- 3. MAN Man Sports Game Day SourBatch - Lead**
- 4. MAN Man Sports CLA Powder Blue Bomb-Sicle - Lead**
- 5. MAN Sports CLA Powder SourBatch - Lead**
- 6. MAN Sports CLA Powder Dorks - Lead**

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

March 24, 2017

Page 2

**Route of Exposure.** The consumer exposures that are the subject of this notice result from the recommended use of these products. Consequently, the route of exposure to this chemical has been and continues to be through ingestion.

**Approximate Time Period of Violations.** Ongoing violations have occurred every day since at least March 24, 2014, as well as every day since the products were introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until this known toxic chemical is either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemical. The method of warning should be a warning that appears on the product label. The Violator violated Proposition 65 because it failed to provide persons handling and/or using these products with appropriate warnings that they are being exposed to this chemical.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violator to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemical, or provide appropriate warnings on the labels of these products; (2) pay an appropriate civil penalty; and (3) provide clear and reasonable warnings compliant with Proposition 65 to all persons located in California who purchased the above products in the last three years. Such a resolution will prevent further unwarned consumer exposures to the identified chemical, as well as an expensive and time consuming litigation.

ERC has retained me as legal counsel in connection with this matter. **Please direct all communications regarding this Notice of Violation to my attention at the law office address and telephone number indicated on the letterhead.**

Sincerely,

---

Michael Freund

Certificate of Merit

Certificate of Service

OEHHA Summary (to M.A.N. Sports LLC and its Registered Agent for Service of Process only)

Additional Supporting Information for Certificate of Merit (to AG only)

**CERTIFICATE OF MERIT**

**Re: Environmental Research Center, Inc.'s Notice of Proposition 65 Violations by M.A.N. Sports LLC**

I, Michael Freund, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged that the party identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.

2. I am an attorney for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemical that is the subject of the notice.

4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute.

5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: March 24, 2017

## Appendix A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT  
CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY  
THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986  
(PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as “Proposition 65”). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. Please refer to the statute and OEHHA's implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.<sup>1</sup> These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

### *WHAT DOES PROPOSITION 65 REQUIRE?*

**The “Proposition 65 List.”** Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at:

[http://www.oehha.ca.gov/prop65/prop65\\_list/Newlist.html](http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html).

Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

**Clear and reasonable warnings.** A business is required to warn a person before “knowingly and intentionally” exposing that person to a listed chemical unless an exemption applies. The warning given must be “clear and

reasonable.” This means that the warning must: (1) clearly say that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

***Prohibition from discharges into drinking water.*** A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

#### ***DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?***

Yes. You should consult the current version of the statute and regulations

(<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

***Grace Periods.*** Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

***Governmental agencies and public water utilities.*** All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

***Businesses with nine or fewer employees.*** Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

***Exposures that pose no significant risk of cancer.*** For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses “no significant risk.” This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific “No Significant Risk Levels” (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at:

<http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

***Exposures that will produce no observable reproductive effect at 1,000 times the level in question.*** For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the “no observable effect level” divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at:

<http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

***Exposures to Naturally Occurring Chemicals in Food.*** Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant<sup>2</sup> it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

***Discharges that do not result in a "significant amount" of the listed chemical entering any source of drinking water.*** The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

#### ***HOW IS PROPOSITION 65 ENFORCED?***

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off- premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;

- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A private party may not file an action against the alleged violator for these exposures, or recover in a settlement any payment in lieu of penalties any reimbursement for costs and attorney's fees, if the notice was served on or after October 5, 2013, and the alleged violator has done *all* of the following within 14 days of being served notice:

- Corrected the alleged violation;
- Agreed to pay a civil penalty of \$5B500 (subject to change as noted below) to the private party within 30 days; and
- Notified the private party serving the notice in writing that the violation has been corrected.

The written notification to the private-party must include a notice of special compliance procedure and proof of compliance form completed by the alleged violator as directed in the notice. On April 1, 2019, and every five years thereafter, the dollar amount of the civil penalty will be adjusted by the Judicial Council based on the change in the annual California Consumer Price Index. The Judicial Council will publish the dollar amount of the adjusted civil penalty at each five-year interval, together with the date of the next scheduled adjustment.

An alleged violator may satisfy these conditions only one time for a violation arising from the same exposure in the same facility or on the same premises. The satisfaction of these conditions does not prevent the Attorney General, a district attorney, a city attorney of a city of greater than 750,000 population, or any full-time city prosecutor with the consent of the district attorney, from filing an enforcement action against an alleged violator. The amount of any civil penalty for a violation shall be reduced to reflect any payment made by the alleged violator for the same alleged violation to a private-party.

A copy of the notice of special compliance procedure and proof of compliance form is included with this notice and can be downloaded from OEHHA's website at: <http://oehha.ca.gov/prop65/law/p65law72003.html>.

The notice is reproduced here:

Date: March 24, 2017

Name of Noticing Party or attorney for Noticing Party: Environmental Research Center, Inc.

Address: 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108

Phone number: 619-500-3090

## **SPECIAL COMPLIANCE PROCEDURE**

### **PROOF OF COMPLIANCE**

You are receiving this form because the Noticing Party listed above has alleged that you are violating California Health and Safety Code §25249.6 (Prop. 65).

**The Noticing Party may not bring any legal proceedings against you for the alleged violation checked below if:**

1. **You have actually taken the corrective steps that you have certified in this form**
2. **The Noticing Party has received this form at the address shown above, accurately completed by you, postmarked within 14 days of your receiving this notice**
3. **The Noticing Party receives the required \$500 penalty payment from you at the address shown above postmarked within 30 days of your receiving this notice.**
4. **This is the first time you have submitted a Proof of Compliance for a violation arising from the same exposure in the same facility on the same premises.**

### **PART 1: TO BE COMPLETED BY THE NOTICING PARTY OR ATTORNEY FOR THE NOTICING PARTY**

The alleged violation is for an exposure to: (check one)

☐ Alcoholic beverages that are consumed on the alleged violator's premises to the extent on-site consumption is permitted by law.

☐ A chemical known to the state to cause cancer or reproductive toxicity in a food or beverage prepared and sold on the alleged violator's premises for immediate consumption on or off premises to the extent: (1) the chemical was not intentionally added; and (2) the chemical was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination.

☐ Environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises.

☐ Chemicals known to the State to cause cancer or reproductive toxicity in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking noncommercial vehicles.

### **IMPORTANT NOTES:**

1. You have no potential liability under California Health and Safety Code §25249.6 if your business has nine (9) or fewer employees.
2. Using this form will NOT prevent the Attorney General, a district attorney, a city attorney, or a prosecutor in whose jurisdiction the violation is alleged to have occurred from filing an action over the same alleged violations, and that in any such action, the amount of civil penalty shall be reduced to reflect any payment made at this time.

Date: March 24, 2017

Name of Noticing Party or attorney for Noticing Party: Environmental Research Center, Inc.  
Address: 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108  
Phone number: 619-500-3090

**PART 2: TO BE COMPLETED BY THE ALLEGED VIOLATOR OR AUTHORIZED REPRESENTATIVE**

**Certification of Compliance**

Accurate completion of this form will demonstrate that you are now in compliance with California Health and Safety Code §25249.6 for the alleged violation listed above. You must complete and submit the form below to the Noticing Party at the address shown above, postmarked within 14 days of you receiving this notice.

I hereby agree to pay, within 30 days of completion of this notice, a civil penalty of \$500 to the Noticing Party only and certify that I have complied with Health and Safety Code §25249.6 by (check only one of the following):

- ☐ Posting a warning or warnings about the alleged exposure that complies with the law, and attaching a copy of that warning and a photograph accurately showing its placement on my premises;
- ☐ Posting the warning or warnings demanded in writing by the Noticing Party, and attaching a copy of that warning and a photograph accurately its placement on my premises; OR
- ☐ Eliminating the alleged exposure, and attaching a statement accurately describing how the alleged exposure has been eliminated.

**Certification**

My statements on this form, and on any attachments to it, are true, complete, and correct to the best of my knowledge and belief and are made in good faith. I have carefully read the instructions to complete this form. I understand that if I make a false statement on this form, I may be subject to additional penalties under the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65).
